

Land Office Business Lively.

There is substantial information that the big well will be in operation soon.

The homestead business is taking new life lately as there has been an increase in filings recently. There has been several homestead and coast desert filings.

There is substantial information that the big well will soon be installed with new modern machinery and be set in operation. This will be financed by one of the leading merchants of Lovington and will prove very helpful to the town, and will give prospectors a chance to see the water flow and will not have to rely on talk. Trees have been bought to set part of the land in orchard.

LOVINGTON COTTON.

One bale of cotton from Lovington sold at Seminole last Saturday and brought \$8.30 per hundred, which was 5 cents higher than other cotton sold that day.

THE COLORADO RIVER BASIN

A Region of Vast Economic and International Importance.

There is no more interesting river in the world than the Colorado. Industrially, topically, and geologically, it presents more diverse conditions than any other stream in the United States. From the crest of the Rocky Mountains in Colorado and Wyoming it sweeps across the intervening country, traveling parts of Utah, New Mexico, Arizona and Nevada, to the head of the Gulf of California, the area drained being about 300,000 square miles. In the Rocky Mountain region it flows through a country covered by eternal snows and water some of the most fertile and valuable agricultural lands in the world in western Colorado, northwestern New Mexico, and eastern Utah. It traverses the famous Grand Canyon of the Colorado, in the northern part of Arizona, and finally passes over the lower plateau above the Gulf of California.

Price's Big Well Will Run Sat.

All Who Want to see the Well Run Come Out Saturday.

For the benefit of all who desire to see the Price well in operation, he will run it Saturday all day. There have been so many who have wanted to see it that he will run it on that date. He has not built his tank yet nor plowed his land, and for this reason he has not begun running it regularly.

A new skating rink is being put in and the young people will have a place to spend their evenings and dimes.

GERTIE READY FOR ANOTHER VICTIM.

Mrs. Gertrude Patterson is out with her pistol and it is not yet known whether she will join the Kansas tar parties, or Tennessee nightriders, or will pose in some cheap show as an American Heroine, but it will be advisable for her next husbands or companion, "globe trotter" who takes her along, just because he has known her so long, or "just because she made those Goo-goo eyes," to wear an armor.
